Doctor Profile

Orthopaedic Surgeon

Hip & Knee

Dr Arash Riazi

MBBS, BSc (Med), FRACS (Ortho), FAOrthA

Dr Riazi has a keen interest in sports and lower limb joint replacement surgery and has had further training with prominent surgeons in the area of knee sports injuries and anterior cruciate ligament (ACL) reconstruction.

He has extensive experience performing emergency/trauma and general elective orthopaedic surgery and has also worked in the USA with prominent surgeons in the areas of hip and knee joint replacement.

Dr Riazi obtained his Bachelor of Medicine, Bachelor of Surgery and entered the accredited orthopaedic training programme with the Royal Australasian College of Surgeons in 2005.

In 2011 Dr Riazi earned his FRACS distinction and was recognised as a Specialist Orthopaedic Surgeon.

The distinction is only awarded to specialist surgeons who have completed a minimum of 12 years medical and surgical education, with at least 5 years of specialist postgraduate training.

Dr Riazi's approach to practice is focused on excellence in orthopaedic treatment and personalised, compassionate care for every patient.

Areas of interest:

- Anterior and posterior hip replacement
- Revision Hip
- Knee arthroplasty/replacement
- Lower limb ligament reconstructions
- Arthroscopic surgery (meniscus repair)
- Knee ACL reconstruction
- Trauma and fracture treatment of both upper and lower limb
- Knee restoration
- Complex peri-prosthetic fracture treatment
