# Doctor Profile

## Orthopaedic Surgeon

### Hip & Knee

## Mr Jonathan Robin

### MBBS (Hons), MD, FRACS, FAOrthA

Jonathan is a fellowship-trained orthopaedic surgeon with a sub-specialist interest in sports knee injuries and knee and hip arthritis. He is committed to personalised care of every patient from initial assessment through to individualised treatment. After completing two prestigious European knee fellowships, Jonathan has focussed his attention on providing the highest quality care for his patients with knee and hip problems. He has a passion for sport and for treating athletes of all sporting codes, especially those with ACL injuries or patella instability. Jonathan utilises the latest technology including robotics for joint replacement which helps to personalise surgery. He enjoys teaching and is a supervisor of orthopaedic trainees at Eastern Health.

#### Areas of interest:

- Robotic Knee and Hip Replacement (Mako)
- Knee arthroscopy
- ACL reconstruction
- Meniscus repair
- Multi-ligament injuries
- Patella stabilisation
- Knee osteotomy
- Cooled radio frequency ablation (Coolief)
- Viscosupplementation (Durolane)
