Doctor Profile Orthopaedic Surgeon Hip & Knee

Mr Osama Elsewaisy MBBS, FRACS, FAOrthA

Mr. Osama Elsewaisy is an Australian and internationally trained Orthopaedic Surgeon who treats conditions affecting the hip and knee. In addition to his Orthopaedic training in Australia, he has undertaken two international subspecialty fellowships focusing on hip and knee surgery, in the UK and Canada. He has a public hospital appointment at St. Vincent's Hospital, Melbourne.

He regularly performs:

- Hip replacement (posterior and anterior approaches)
- Knee replacement (partial, total and robotic)
- Arthroscopic knee surgery, including ACL reconstruction and meniscus surgery

Osama is a Fellow of the Royal Australasian College of Surgeons and the Australian Orthopaedic Association, and a member of the Canadian Arthroplasty Society.

Osama's training and experience in Australia, the UK and Canada give him a well-rounded international perspective in the management of disorders affecting the hip and knee.
