Doctor Profile

Gastroenterology & Hepatology

Dr Christopher Li Wai Suen **MBBS (Hons. I), MMed(Clin Epi), FRACP** **Languages: French, Hakka Chinese**

Dr Christopher Li Wai Suen is a Gastroenterologist and Hepatologist with a special interest in managing bowel disorders. He performs endoscopic procedures, including gastroscopy and colonoscopy, at Adeney Private Hospital, and works as a consultant specialist at Austin Health, Eastern Health and Western Health.

Chris graduated from Monash University in 2009 with a Bachelor of Medicine/Bachelor of Surgery (First Class Honours) and undertook his basic physician training at Monash Health. He went on to complete his specialist training at Western Health and at Austin Health, including at the Victorian Liver Transplant Unit. He then pursued a combined Clinical and Research Fellowship in Inflammatory Bowel Disease at Austin Health.

Chris is actively involved in research. He holds a Master of Medicine in Clinical Epidemiology (High Distinction) from the University of Sydney and is currently completing a PhD at the University of Melbourne, supported by a prestigious NHMRC scholarship. His research focuses on identifying novel biomarkers to improve the treatment of patients with inflammatory bowel disease. Chris has presented his work at national and international conferences and has published in high-impact journals.

Chris is a member of the Gastroenterological Society of Australia (GESA), the European Crohn's & Colitis Organisation (ECCO), and the American Gastroenterological Association (AGA).

Procedures offered:

- Colonoscopy
- Gastroscopy
- Open access endoscopy

Chris provides comprehensive consultations across all areas of gastroenterology and hepatology.

Areas of interest:

- Bowel cancer screening
- Positive faecal occult blood test (FOBT) and rectal bleeding
- Iron deficiency
- Gastro-oesophageal reflux disease (GORD)
- Inflammatory bowel disease, including Crohn's disease and ulcerative colitis
- Coeliac disease
- Irritable bowel syndrome (IBS)
- Liver disorders and abnormal liver function tests
