Doctor Profile

Medical Haematology

Dr Chloe Tang

MBBS, FRACP (Haem)

LANGUAGES: Mandarin, Cantonese, Malay.

AREAS OF INTEREST: Lymphoproliferative disorders.

Dr Chloe Pek Sang Tang is an accomplished clinical haematologist with internationally recognised proficiency in lymphoproliferative disorders. She obtained her medical degree at The University of Melbourne in 2007 before completing specialist haematology training in 2015, at the leading centres of St Vincent's Hospital Melbourne, Alfred Hospital, Monash Medical Centre and Peter MacCallum Cancer Centre. She has completed a MPhil through The University of Melbourne on Chronic Lymphocytic Leukaemia (CLL).

In 2019, Chloe undertook a prestigious 12-month fellowship at the University of Oxford's Molecular Diagnostic Centre with Professor Anna Schuh. This has culminated in her position as leader of the writing task force on behalf of the British Society of Haematology and UK CLL forum for national management guidelines for CLL. She is passionate about clinical research and has published extensively in top-tier haematology journals including The Lancet. She also engages in regular teaching at the University of Melbourne Medical School.

Chloe is adept at management across the entire spectrum of haematological disorders and holds a clinical appointment at the Alfred Hospital. Her overarching ethos is to provide individualised, patient-centred care through promotion of precision medicine. Chloe is fluent in Mandarin, Cantonese and Malay. During her spare time, she enjoys spending time with her two children as well as hiking and playing the piano.
