Doctor Profile

Urology/Urological Surgery

Dr Peter Liodakis

MBBS, FRACS

LANGUAGES: Greek

Mr Peter Liodakis completed his general Urological training in Melbourne and subsequently spent a year doing a fellowship in minimally invasive surgery. Peter has many interests within Urology but in particular with laparoscopic and robotic procedures for benign and malignant diseases, dealing with BPH and stone surgery.

Peter also offers specialized radiotherapy techniques for prostate cancer (brachy therapy – seed implants) with the support of an experienced radiation oncology team.

Peter has performed hundreds of robotic and laparoscopic procedures. Peter is a regular instructor at the College of Surgeons for Urology trainees and has presented in local and international meetings with several publications.

Being fluent in Greek Peter is happy to conduct a consultation in Greek if preferred and his other interests outside Urology include family, most sports and travel.

Areas of interest:

- Greenlight laser TURP
- Holmium Laser stone ablation
- Transperineal prostate biopsy
- Vasectomy, Vas reversal, Scrotal surgery, Circumcision
- Microsurgery for Varicocoele repair and orchalgia
- Minimally invasive prostate and renal surgery
- Kidney stones
- Prostate cancer
- Laparoscopic techniques
- Robotic techniques

Peter believes all patients should be treated respectfully and offered best evidence-based management. All complex cases for management are discussed at a multidisciplinary meeting and referred for treatment if required.

Peter consults at:

Private rooms in Heidelberg, 11 Martin Street, Heidelberg, 3084
Austin Health, 145 Studley Road, Heidelberg, 3084
Mildura, 234 Thirteenth Street, Mildura 3550
