## Doctor Profile Orthopaedic Surgeon Hip, Knee, Trauma

### Mr Ruban Ambikaipalan

MBBS FRACS FAOrthA BSc

Mr Ruban Ambikaipalan is an experienced Orthopaedic Surgeon with interests in Hip and Knee surgery as well as managing fractures and soft tissue injuries in both the upper and lower limbs for adults and children.

His focus is on ensuring patients achieve the best outcome for their condition by providing a holistic and team-oriented approach to their care. Ruban's practice is based on a multi-disciplinary approach where he works alongside a patient's General Practitioner, Physiotherapist and other Allied Health professionals to achieve a smooth recovery from their musculoskeletal injury or surgery.

Mr Ambikaipalan has undertaken subspecialist training in Hip and Knee replacement surgery at world-leading centres in the United Kingdom and Europe. He also has an interest in Robotic and Computer Navigated surgery as well as using minimally invasive approaches to assist in early post operative recovery.

#### Areas of interest:

- Hip & Knee Replacement Surgery – primary and complex
- Revision Hip and Knee Replacement Surgery
- Minimally invasive surgery, Robotic assisted Surgery and Computer navigation
- Knee arthroscopic surgery
- Soft tissue knee injuries – ligament injuries and meniscal tears
- Fractures – upper limb and lower limb fractures, soft tissue injuries including tendon ruptures
- Management of joint and soft tissue infections
- Paediatric fracture management
