

Urinary symptoms, PSA testing and urology referrals

- How many times a night you get up, and how long it's been happening
- What's changed: stream, urgency, leaking, pain
- Every medicine and supplement you take
- Family history: father or brother with prostate cancer, and their age at diagnosis
- What bothers you most

[illegible]

- Which urologists do you refer to, and where do they operate?
- I'd like to know my hospital options. Can you refer me to a urologist who operates at the hospital I prefer?
- What will the first consultation cost, and what will Medicare cover?
- If I need a procedure, what out-of-pocket costs should I ask about?
